

Is AI Capable of Legal Reasoning and Decision Making?: Lessons from Theory to Practice

February 17, 2026

6:00 p.m. EST

Venue: AAA-ICDR, 150 East 42nd Street, Floor 17, New York, NY 10017

Registration: Please register [here](#).

PROGRAM

This event will focus on whether and to what extent AI is capable of legal reasoning and how it is contributing to legal strategy in arbitrations today. Panellists will address, for example, enhanced reasoning and deep research models, retrieval-augmented generation (RAG) tools, and decision-making mechanisms. The aim is to bring together arbitration practitioners and technologists to explain how these tools work and highlight concrete use cases, practical experience, and early lessons.
