

On-Demand Interpreters

Empower your proceedings with professional interpreting. Ideal for virtual, hybrid, or in-person events.

Your interpreter participates remotely*. You can choose consecutive interpreting or real-time simultaneous interpreting, where participants can dial in to the language channel they wish to listen to during the proceedings. Interpreters available for most languages.

Find the right interpreter for your case

Interpreters are carefully vetted. If needed, expert interpreters are available who can handle challenging subject matter (life sciences, medical, technical)**. Consultants available to learn your needs and advise on the optimal interpreting solution to meet your objectives. Effort will be made to assign a linguist within the time zone of the proceedings to avoid after-hours rates. If desired, parties can opt to review and approve the CV of the proposed interpreter(s) ahead of time.
