#### PROGRAM

**Webinar 2:** What constitutes evidence in construction disputes, and how can parties best position themselves to develop the facts and proof that may be necessary to demonstrate their case? During this webinar, our panel of leading arbitration practitioners and experts will share their views and provide tips and best practices for effectively obtaining and presenting evidence in complex construction claims before international arbitration tribunals. Key topics will include how to effectively conduct early-stage fact finding in construction disputes, successful mechanisms for collecting and presenting evidence throughout an arbitration proceeding, and ways to effectively use witness and expert evidence.
